ODISHA BIOTECH CONCLAVE- 2024

Industry – Academia Connect

(Ideate, Innovate & Execute)

Date: 6th April 2024

Venue: Auditorium, Block-5,
Trident Group of Institutions, Bhubaneswar

Organized by
Trident Academy of Technology

Ecosystem Partner

Startup Odisha

Knowledge Partner

DBT-Institute of Life Sciences

ABOUT TRIDENT SCHOOL OF BIOTECH SCIENCES

The School of Biotech Sciences of Trident Group of Institutions has been a front-line Institution imparting organized university curriculum of Biotechnology in UG in the state of Odisha, drawing students from all parts of the state as well as from West Bengal, Bihar, Jharkhand and Assam/North-East. Its alumni are now engaged in various Biotech Research Centers/Institutions/Companies all around the world. The university recognizes Trident Biotech as a place of research.

ODISHA BIOTECH CONCLAVE 2024

Academics and Industrialists have a different mindset; as they both live in two different worlds. Deepening of Industry-Academia Interaction is vital for the future of our student community and for widening their scope and possibilities to be a part of Industries. Colleges and Universities must prepare their students for the workplace, not just for award of Degrees. Industry expectations should be tilled deep into the bioscience education system continuously for improving the curriculum and vice-versa, to build future leaders of the nation. There is an ever-increasing focus on making the academia and industry interface more effective. Though academic and industrial entities hold different values and are motivated by different incentives, one key to overcome the obstacles to a successful interaction is to better understand the synergy of the two worlds and work on a platform of collaboration.

Trident Group of Institutions organizes Odisha Biotech conclave every year since 2006. This year's theme revolves around "Innovation, Entrepreneurship, and Startup Ecosystem," aiming to bring together Government officials, MNCs, Academicians, Start-ups, Researchers, and Students from across Odisha. We are planning to hold "Odisha Biotech Conclave-2024" on 6th April in the college premises with an objective of Industry – Academia Connect, which will be attended by representative members from all leading Bio-startups of Odisha &

teaching fraternity of all leading colleges of the state in the Departments of Life-sciences (Botany / Zoology / Microbiology / Biotechnology etc.). Bridging the gap between industry and Academia, the conclave will facilitate meaningful interactions, knowledge exchange, and technology transfer. Startup Odisha (A unit of repute under the MSME Department, Govt of Odisha) & DBT-ILS Bio-incubator (An institute of repute under Department of Biotechnology, GOI) are collaborating with the Trident group in organizing the event by providing mentorship support.

With an aim to bridge the gap between Industry & academia, we are organizing this conclave in which representatives of various successful Bio- startups are invited for experience sharing and interaction with faculty & students.

The agenda of the conclave will cover to build a startup ecosystem in the Life Science domain across different sectors like Agriculture, Health care, Food Processing, Sustainability, Ecology & Biodiversity etc and applications of Mathematical models, AI/ML, Data Science & Analytics, IoT etc. in these domains

Key Highlights:

- 1 Interactions with various stakeholders involved in the Bio startups.
- 2 Inspiring Keynote Presentations
- 3 Engaging Panel Discussions
- 4 Informative Industry Talks
- 5 Solve different FAQs regarding startup by panel discussion.

What You Stand to Gain:

- As a participant of Odisha Biotech Conclave 2024, you stand to gain invaluable opportunities, including:
- Unlocking exciting Internship and Placement avenues for students.
- Engaging in valuable interactions with Industry Experts from diverse domains.
- Enjoying insightful discussions with distinguished Academicians.
- Immersing yourself in networking opportunities with innovative startups.
- Discovering a wealth of knowledge about different funding possibilities.

Who should attend

Startups, Incubators, Entrepreneurs, Industry Executive, Faculty, professors, Scientists, Teachers, Students, etc.
